Capacity	5+1	Overall Length	34.25"	Twist	1:20" RH
Stock	Black Laminate	Length of Pull	13.38"	Grooves	6
Material	Stainless Steel	Barrel Length	16.10"	UPC	7-36676-70450-7
Finish	Satin	Thread Pattern	11/16" - 24	Suggested Retail	\$1,349.00
Front Sight	Skinner Sights™ Blade				

- Receiver, lever and trigger guard plate are CNC machined from 416 stainless steel forgings.
- Barrel is made of 410 stainless steel and is cold hammer-forged which results in ultra-precise rifling that provides exceptional accuracy and longevity.
- Threaded barrel, with factory-installed thread protector, has a 11/16" - 24 pattern to accommodate a muzzle brake or other barrel accessories.
- Stainless steel components have a satin, non-shiny finish.
- Adjustable Skinner Sights™ receiver-mounted peep sight is perfect for rapid target acquisition.
- Five-round, tubular magazine with a loading gate located on the receiver.
- Soft-rubber buttpad effectively absorbs recoil.
- Positive, push-button, cross-bolt manual safety and traditional half-cock hammer.
- Reliably feeds a wide range of .45-70 Govt factory ammunition and bullet types.
- Durable, laminate buttstock and forend remain dimensionally stable in varying weather conditions.
- Sharp checkering provides an excellent grip in all weather conditions.
- Spiral-fluted, nickel-plated bolt aids smooth cycling.
- Oversized lever loop provides clearance for operation with heavy gloves.
- Slimmed-down forend for an attractive look and comfortable feel.
- Also includes: Sling swivel studs, offset hammer spur.
